

How to Register

Pre-registration is required for all trainings. Participants may only register themselves. Registration for other parties will not be accepted. Most trainings offered by 4-C are free of charge to 4-C provider members. Participants are registered on a first come, first served basis upon receipt of a completed registration form *and* all relevant fees/deposits, until all spaces are filled. Please note: Checks held for waiting lists will be shredded at the end of the current calendar period.

Confirmations: Prior to trainings, an email or letter is sent notifying participants of their registration status. The letter will state whether the participant is **registered** or placed on the **waiting list** for a training. In the interest of timeliness, it may sometimes be necessary to notify providers via phone or fax. In addition to the confirmation letter, participants with an email address will receive a training reminder email within 1-2 weeks of the training.

Fees and Deposits: Select trainings, when specified in the training description, may have a deposit required for registration. Statewide fees have been set for the trainings listed below. These fees are non-refundable and non-transferable. 4-C membership not required for trainings with statewide fees.

CPR/First Aid Fees: There is a required \$20.00 non-refundable and non-transferable fee to register for CPR/First Aid trainings. Please do not combine CPR/First Aid fees with fees for other trainings. CPR/First Aid trainings are open to provider members 18 years and older working in child care settings in Carroll, DeKalb, Lee, McHenry, Ogle, and Whiteside counties.

Non-member Fees: Child care providers who work outside the 4-C service delivery area may register for most 4-C trainings. Please note: CPR and First Aid classes are reserved for providers in the 4-C service delivery area. Statewide fees apply to the ExceleRate trainings below. There is a \$10 non-refundable fee for other 4-C trainings; with the exception of the "What is CCAP?" training which is offered free of charge to any interested provider, parent or social service agency staff who would like to learn more about the Illinois Department of Human Services Child Care Assistance Program.
